

## PATIENT SEMINAR

# What is the state-of-the-art treatment for CLL in New Zealand?

**Wednesday 14 October, from 5.30 pm**

*What are the latest international and local developments in CLL research and treatment, and what's on the horizon? What is the optimal approach to 'watch and wait' management? How can we access clinical trials? How does New Zealand compare with international standards of care?*

For answers to these questions and more, join us in person or online for the CLL Advocates NZ Inaugural CLL Seminar, featuring three of NZ's top haematologists and CLL specialists **Dr Rob Weinkove**, **Dr Peter Browett** and **Dr Gillian Corbett**.

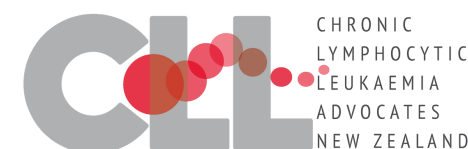

The format will be short presentations from each speaker followed by a panel discussion and Q&A. Attendees can send in questions in advance of the meeting or ask them in person either at the event or through the Q&A chat window on the live stream of the seminar.

Questions you'd like to submit in advance can be emailed to [TimM@leukaemia.org.nz](mailto:TimM@leukaemia.org.nz)

The event is co-hosted by Leukaemia & Blood Cancer New Zealand with three options to attend. You can attend in person at LBC's main office in Auckland, at your local LBC support centre (via Zoom live stream), or from the comfort of your home via Zoom live stream.

Patients and their supporters are welcome to attend.

Visit [www.cladvocates.nz](http://www.cladvocates.nz) for more information

## Ways to attend
